LORE LINDELL TAMAYO

Cagayan de Oro City, Philippines | tamayo.lorelindell1@gmail.com | github.com/LOR-afk

EDUCATION

PHINMA CAGAYAN DE ORO COLLEGE Cagayan de Oro City

- Bachelor of Science in Information Technology | Fourth-Year Student
- Focus: Full-Stack Web Development · Cybersecurity

PROJECTS

WR PLUMBING AND CONSTRUCTION SERVICES MANAGEMENT SYSTEM Laravel · PHP · MySQL

- Developed a web-based billing and scheduling platform supporting appointments, quotations, job orders, and payment workflows.
- Implemented role-based access, client and staff portals, authentication workflows, and responsive dashboards.

SECRETSENTINEL - SOURCE CODE SECRET SCANNER FastAPI · React · MySQL

- Built an archive-scanning application that flags potential hardcoded credentials and secrets, with file-level findings and scan history.
- Implemented REST endpoints, persistent storage, and a React interface for reviewing scan results.

RATESHIELD - API ABUSE DETECTION SYSTEM FastAPI · React · MySQL

- Developed an API rate-limiting and security monitoring prototype with configurable request thresholds and HTTP 429 responses.
- Added failed-login activity detection, event logging, and heuristic client risk scoring.

CYBERSECURITY PRACTICE

HANDS-ON SECURITY LABS & TOOLS Ongoing

- Use Kali Linux and Ubuntu for networking, system administration, and controlled security lab exercises.
- Practice web and network security workflows with Burp Suite, Wireshark, SQLmap, and PicoCTF.
