

LORE LINDELL TAMAYO

Cagayan de Oro City, Philippines | tamayo.lorelindell1@gmail.com | github.com/LOR-afk

EDUCATION

PHINMA CAGAYAN DE ORO COLLEGE

Cagayan de Oro
City

Bachelor of Science in Information Technology

Fourth-Year
Student

Focus: Full-Stack Web Development · Cybersecurity

PROJECTS

WR PLUMBING AND CONSTRUCTION SERVICES MANAGEMENT SYSTEM

Laravel · PHP ·
MySQL

- Developed a web-based billing and scheduling management system supporting appointment scheduling, billing and payment workflows, and operational management.
- Implemented role-based access, client and staff portals, security-focused authentication, and a responsive user interface.

DEVELOPER PORTFOLIO

React · Vite

- Built and deployed a responsive personal portfolio highlighting full-stack development, cybersecurity practice, projects, and professional credentials.
- Integrated a Supabase-backed 1–5 star portfolio rating feature with shared averages, total ratings, and responsive light/dark UI behavior.

CYBERSECURITY PRACTICE

HANDS-ON SECURITY LABS & TOOLS

Ongoing

- Use Kali Linux and Ubuntu for command-line, networking, system administration, and controlled cybersecurity lab exercises.
- Practice web and network security workflows with Burp Suite, Wireshark, SQLmap, and PicoCTF challenges covering web exploitation, cryptography, forensics, and networking.
